³ University, Faculty or Vocational school name, Department, Postal Code, City, Country

*Corresponding author e-mail:@.....com

Abstract

The title should be written in 12pt, the first letter of each word should be capitalized, 1 line spacing and in bold. Author names should be written in 11pt, 1 line spacing and in bold. The name of the corresponding author should be underlined, and () should be placed after the name of the presenter author. Authors' addresses should be given as shown above and should be centered. "Abstract" should be written in 11pt Times New Roman bold font, centered according to the column, and the beginning should be written in capital letters. The texts in the abstract should be written in italic, Times New Roman, 11 font size, 1.15 line spacing and justified. The summary should not exceed one page.*

Key words: *At least 3 and at most 5 keywords with capital letters should be used. Keywords should be separated by commas (.). (Keyword 1, Keyword 2,)*

INTRODUCTION

Introduction section will briefly summarize the research and contain information about the purpose of the research. There must be a margin of 2.5 cm from each side of the page. Section headings should be written in all capital letters, Times New Roman, 11 font size, 1.15 line spacing, 6pt paragraph spacing and bold and left justified according to the column. Second-order section titles should be written in capital letters, the others in lower case. Section titles in three or more degrees should be written in capital and italic letters. The first paragraph after the title should begin under the title and not be indented. The text of the proceedings should be written in Times New Roman, 11 font size, 1.15 line spacing and justified to the column. There should be 6 pt spaces between the paragraphs. While single author references are shown in the text, at the end of the paragraph (Author's surname, 2021), references with two authors: Author's surname and Author's surname, 2021), references with three or more authors: (Author's surname et al., 2021). If the same author or authors have more than one publication in the same year, they should be listed according to the month of publication and should be lettered as a and b at the end of the publication year (Author's surname, 2000a; Author's surname, 2000b; etc.).

For the second and subsequent paragraphs, the beginning of the paragraph should be indented 0.5 cm. Body of text Body of text Body of text Body of text Body of text Body of text body of text (Author's Surname, Date; Author's Surname and Author's Surname, Date). Body of text body of text body of text body of text body of text body of text (Author's surname, 2021; Author's surname et al., 2021).

MATERIAL AND METHODS

Material

The material used in the scientific study should be given clearly depending on its sources. In addition, the statistical models used in the study should be expressed clearly and precisely. The first paragraph after the title should begin under the title and not be indented. The text of the proceedings should be written in Times New Roman, 11 font size, 1.15 line spacing and justified to the column. There should be 6 pt spaces between the paragraphs. For the second and subsequent paragraphs, the beginning of the paragraph should be indented 0.5 cm. Body of text Body of text Body of text Body of text Body of text Body of text body of text (Author's Surname, 2021; Author's Surname and Author's Surname, 2021).

Methods

The Collection of the Data

Section titles in three or more degrees should be written in capital and italic letters. The first paragraph after the title should begin under the title and not be indented. The text of the proceedings should be written in Times New Roman, 11 font size, 1.15 line spacing and justified to the column. There should be 6 pt spaces between the paragraphs.

Statistical Analysis

Section titles in three or more degrees should be written in capital and italic letters. The first paragraph after the title should begin under the title and not be indented. The text of the proceedings should be written in Times New Roman, 11 font size, 1.15 line spacing and justified to the column. There should be 6 pt spaces between the paragraphs.

The variable name and style should be consistent with those in the equation, including symbols and equations in the text. Equations should be centered and typed in Cambria Math with 11 font size. All equation symbols must be clearly and comprehensibly defined.

$$\bar{X} = \sum_{i=1}^n X_i$$

For the second and subsequent paragraphs, the beginning of the paragraph should be indented 0.5 cm. Body of text Body of text Body of text Body of text Body of text Body of text body of text (Author's Surname, 2021).

RESULTS

The information obtained as a result of the scientific study should be given in this section. The first paragraph after the title should begin under the title and not be indented. The text of the proceedings should be written in Times New Roman, 11 font size, 1.15 line spacing and justified to the column. There should be 6 pt spaces between the paragraphs.

Tables should be listed by number with Latin letters where they are used in the text and should be arranged according to the example as given below. Tables should be fit on the page, justified. Tables that do not fit on one page should be divided into two and indicated as "**Table 1.** continued". It should be cited the tables before the tables in the text. The titles of the tables should be justified and the first letter should be written in uppercase and all letters except for proper names should be written in lowercase. The abbreviations and statistical criteria in the table should be explained below the table as given in the example.

The sources used in the scientific study should be given in this section. It should be written in 11 font size Times New Roman, 1 line spacing, 0 pt spaces before and after it, justified and in order of surname. For references that do not fit on a line, 0.5 cm hanging indents should be made, and they should be prepared in accordance with the different types of references as given below.
